

Automate patient communication today

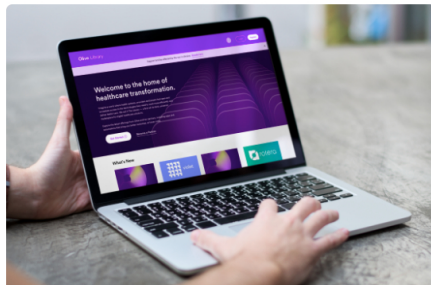

In the last two years, 41% of patients skipped care, and less than half accessed their patient portals for care information in 2022. Change the statistics with Care Campaigns, an automated communication solution for increasing patient visits and improving population health.

[Let's Talk](#)

Engaging with patients doesn't have to be complicated

Care Campaigns integrates directly with your existing EHR and core systems to send personalized texts to patients — **without ever lifting a finger.**

Close care gaps with ready-to-use campaigns

Care Campaigns includes starter templates to use during a variety of important patient care moments, ranging from mammogram screenings to panel management.
